

REMARKS

This paper is filed in response to the Office Action mailed June 12, 2006.

In response to the Notice of Non-Compliant Amendment, Applicant has made the following changes.

The Office Action requested that the replacement Abstract of the Disclosure be provided on a separate sheet. In response, Applicant has present the Abstract of the Disclosure on a separate sheet as requested.

The Office Action noted that a space appeared to be added to Claim 29 in the Response to Office Action filed December 9, 2005, as well as the response to Office Action filed March 21, 2006. The underline in the later-filed response was a typographical error as the amendment had already been made in the earlier-filed response. The underline is not present in the claim listing above.

The Office Action noted that the replacement paragraph labeled 0088 appeared to refer to the wrong paragraph number. Applicant notes that the paragraph numbering of the published application differs from the paragraph numbering of the application as filed. Paragraph 0088 of the published application corresponds to paragraph 0077 of the specification as filed. This is apparently due to the numbering of each sentence of within the Brief Description of the Drawings in the published application. Applicant has re-labeled the amended paragraph as 0077 to correspond to the numbering of the specification as-filed.

Applicant has reviewed the previous two responses and has not found any other errors.

CONCLUSION

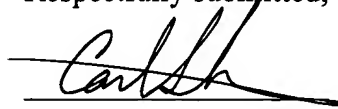

Applicant respectfully asserts that in view of the amendments and remarks above, all pending claims are allowable, and Applicant respectfully requests the allowance of all claims.

Should the Examiner have any comments, questions, or suggestions of a nature necessary to expedite the prosecution of the application, or to place the case in condition for allowance, the Examiner is courteously requested to telephone the undersigned at the number listed below.

Date:

7/11/2006

Respectfully submitted,

Carl Sanders
